In the Specification

Please amend the Specification by replacing the text on page 7, lines 9-11, with the following text:

Figs 31-37 graphically illustrate various matrix switch programming grid states at select points in generating and configuring the matrix switch to implement the media processing of Fig. 29.

Please also amend the specification by inserting, on page 7, line 19, the following:

-- Fig. 40 graphically illustrates a user-defined editing project.

Fig. 41 is a block diagram that illustrates an exemplary switch assembly in accordance with one described embodiment.

Fig. 42 is a flow diagram that describes steps in a method in accordance with one described embodiment.

Figs. 43-44 illustrate an exemplary grid structure in accordance with the described embodiment.

Fig. 45 is a flow diagram that describes steps in a method in accordance with one described embodiment.--
